digital-mile.at

We are an association of IT companies, a community of innovative minds, spanning a mile from the Danube promenade to the industrial zone in Linz. A place where over 110 highly innovative digitalization companies with more than 3,500 employees bring their ideas and visions to life. We are a community that inspires people around the world to collaborate with us in shaping the future.

LEND A HAND:

Celebrating for a good cause

Raising funds for „Herzkinder Österreich"

Herzkinder Österreich accompanies and supports families with children with heart disease - from the moment of diagnosis, throughout their lives.

The organisation provides valuable help, offers psychosocial care, heart education and practical support in everyday life. With your donation, you give these children and their families hope, strength and a bit of normality. DIGITAL MILE Linz supports and collects money for „Herzkinder families" in Austria.

Thanks!
